- Offers a nominal 20 microns of top coat (industry standard 18 microns)
- DURAKOTE® is endorsed and licensed by the Australian Made Campaign DURAKOTE[®] is listed on the LAHC deemed to comply product register

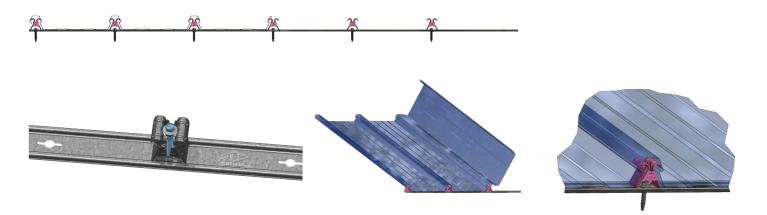

FIXING AND FASTENING ACE LOK®

The ACE LOK® bracket is specifically designed and tested for the ACE LOK® system and quick installation.

Material: Base – 0.42mm (BMT) G550 Aluzinc

Clip tower – 1.2mm (BMT) G300 Aluzinc

Notes: The bracket is self-aligning and has adjustment between brackets if required. Sheets must be laid in the direction shown on the bracket base. Fasteners used must be suitable for connection to the supporting Purlin.

INCOMPATIBLE METALS

To avoid any corrosion please avoid using incompatible metals Copper and Lead with DURAKOTE[®]. Copper pipes and lead flashings should not come in direct contact with DURAKOTE[®] or Aluzinc at any time.

Fixings made of Stainless Steel and fixings containing copper should also not be used with DURAKOTE® or Aluzinc.

INSTALLATION CLEANING

Please ensure after installation, that all deposits of swarf and metal particles from self drilling screws, rivets and nails, are swept away and washed from the roof and gutters at the end of each day. If you fail to do so it will void the warranty.

No responsibility will be taken if DURAKOTE[®] comes into contact with acid when cleaning brickwork. Please advise acid wash contractors to wash off and rinse with clean water all roofing, gutters, fascia and downpipes. Product warranties are void if corrosion occurs as a result of contamination.

PROVEN EXPERIENCE

With over 60 years experience in the rainwater products industry, specialising in the manufacturing of roofing, gutters, fascia, downpipes, accessories and with continual improvement in manufacturing techniques, product innovation, research and development you can be confident DURAKOTE® is a product that is built to last.
